

CAM LASTİKLERİ GLAZING PROFILES

Camı çerçeveye kolay ve ucuz maliyetle sabitleyerek iç mekanı dışarıdan izole eden, bir veya iki parçadan oluşan profillerdir. Ozon ve her türlü hava şartlarına mükemmel dayanım gösteren karışımlarla üretilir. İstendiğinde enjeksiyon kaynağı ile uç veya 90° birleştirme ile nihai kullanım yerine uygun ürün haline getirilir.

Malzeme

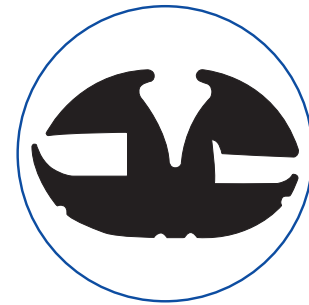

- EPDM Kauçuk, 65±5 Shore A
- Siyah

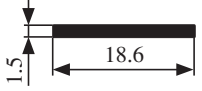

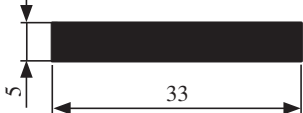

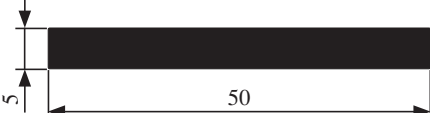

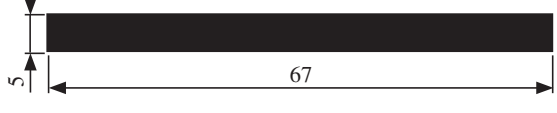

They are easy to install, locking the glass in place to give an efficient seal. Being produced with compound resisted to ozone and weathering, when desired, profiles become tailor made product by connecting each end horizontally or vertically by injection moulding.

Material

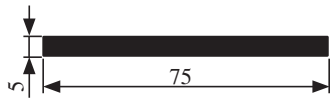

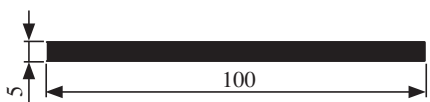

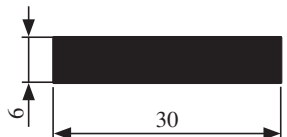

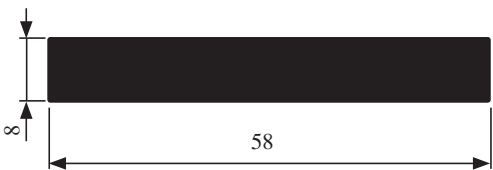

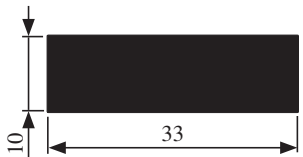

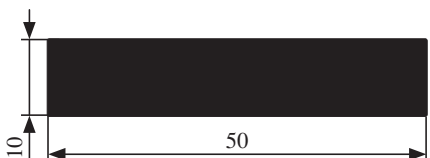

- EPDM Rubber, 65±5 Shore A
- Black
